Planning Schedule and Planning Schedule Release Subsystem

Planning Schedule and Planning Schedule Release for Microsoft Dynamics[®]

Vantage Point EDI provides one of the most powerful solutions available for managing and integrating the Planning Schedule and Planning Schedule Release document set (830/DELFOR and 862/DELJIT, respectively).

The user is provided with a very simple yet powerful way to view, filter, sort and ultimately process records into Microsoft Dynamics. The four available options include:

1. creation of sales orders
2. creation of sales forecasts to integrate into Master Planning/Master Scheduling
3. creation of XML interface for user customization
4. does not integrate the record

The solution's power and simplicity will impress anyone who has dealt with these critical yet complex EDI business documents.

The Planning Schedule and Planning Schedule Release Subsystem is a perfect solution for companies serving the automotive and retail industries that commonly mandate those documents.

BENEFITS FOR VANTAGE POINT EDI USERS

- Powerful management of Planning Schedule and Planning Release documents
- Flexible integration with Microsoft Dynamics products
- Perfectly complements other Vantage Point features such as ASN creation and compliance labeling
- Provides a basis for powerful reporting on planning schedules and releases
