Automotive EDI Solution for Microsoft Dynamics[®]

An excellent choice for Tier 1, Tier 2 and Tier 3 Automotive Suppliers using Microsoft Dynamics

Vantage Point EDI provides all of the critical features and services needed for companies in the automotive value chain running on a Microsoft Dynamics ERP platform.

A comprehensive solution designed specifically for automotive suppliers, Vantage Point EDI enables organizations to meet compliance requirements while streamlining and improving visibility over the entire business, as well as partners' planning and scheduling data.

Data Masons' expert staff includes automotive industry veterans who work with organizations to ensure that they have the latest tools and the proper guidance to make their EDI efforts successful. In addition, Data Masons can manage an organization's EDI compliance needs, enabling valuable resources to focus on growing the business, not EDI.

Vantage Point also integrates with many of the key documents that partners have come to expect, such as production schedules and releases, purchase orders, ASNs, invoices and many others. For further information on these other document types, please visit http://www.datamasons.com/product_information_sheets.

BENEFITS FOR VANTAGE POINT EDI USERS

- Simple to implement and use
- Cost-effective solution with powerful features
- Flexible integration with Microsoft Dynamics
- Helps achieve lean manufacturing objectives through increased efficiency and lower ownership costs
- End-to-end solution including network service that reaches partners on ANX and other popular value-added networks (VANs) used in the industry
